Kobe, Japan

2025 1st International Conference on Artificial Intelligence for Sustainable Society

The 1st International Conference on Artificial Intelligence for Sustainable Society (AISS2025) provides a common platform for exchanging ideas and future collaboration among AI technologies such as generative AI, which are applicable to Sustainable Development (SD) for Energy and Environment.

AISS2025 will be held in Kobe, Japan during November 28-30, 2025 with focusing on "AI aided SD for Energy and Environment toward SS".

We look forward to welcoming attending to AISS2025 in Kobe, which will provide an international community with a highly interactive and scientifically excellent conference on AI technologies for SS.

Topics of AISS2025 covers all aspects of theory and applications of AI technologies related SD toward SS and application of AI technologies, but are not limited to the following topics if they are concerned with AI for SS.

Committees

Honorary Chair

Lakhmi C. Jain, KES International, UK, University of Piraeus, Greece

Advisory Chairs

James Kwok, Hong Kong University of Science and Technology, Hongkong
Chua-Chin Wang, National Sun Yat-Sen University, Taiwan

International Advisory Board Chair

Srikanta Patnaik, I.I.M.T., India
Jair Minor Abe, Paulista University, Brazil
Roumiana Kountcheva, TK Engineering, Bulgaria
Margarita Favorskaya,
Reshetnev Siberian State University of Science and Technology, Russia

General Chairs

Kazumi Nakamatsu, University of Hyogo, Japan
Yen-Wei Chen, Ritsumeikan University, Japan

Conference Chairs

Toshifumi Kimura, University of Hyogo, Japan
Ari Aharari, Sojo University, Japan

Publication

All Accepted and presented papers of AISS 2025 will be published into Springer Proceedings Book Series, which will be included in major databases such as EI Compendex, Scopus, etc.

Keynotes

Prof. James Kwok

IEEE Fellow

Hong Kong University of Science and Technology, Hongkong

Prof. Chua-Chin Wang

Chair of IEEE Circuits and Systems Society (CAS-S), Tainan Chapter
National Sun Yat-Sen University, Taiwan

Prof. Yen-Wei Chen

Ritsumeikan University, Japan

Prof. Ari Aharari

Sojo University, Kumamoto, Japan

Call for Papers

AI Computing and Control for SS

Evolutionary Computation
Machine Learning
Knowledge-based Intelligent Systems
Hybrid Learning System
Remote Sensing
Network Computing
.....

Energy, Environment, Sustainable Society

Energy Savings
Digitization
Recycling
Renewable Water Resource
Zero-carbon Energy Systems
Green House Gas
.....

AI Technology aided Sustainable Development

AI Technologies for Environment Engineering
AI Control for Energy Saving
AI Technologies for Green House Gas Emission
Intelligent Risk Management for Sustainable Development
Efficient Utilization of Natural Energy
AI aided Natural Energy Plant
.....

Other AI Technologies for SS

Searching
Planning
Reasoning
Knowledge Representation
Natural Language Processing
Perception
.....

"but not limited to the above topics if concerned with Sustainable Society".

Submission

Each paper must be submitted via the Online Submission System after being prepared by following the Template Specific Template (LaTeX Template or Microsoft Word Template) and be subject to both review and editing.

Important Dates

Deadline for Paper Submission	September 5, 2025
Notification of Acceptance	October 10, 2025
Deadline for Registration and Camera-Ready Submission	October 25, 2025
